

REPORT

Of the Committee on Naval Affairs, upon the subject of naval stores and munitions of war, appertaining to the Naval Department.

MARCH 4, 1822.

Read, and ordered to lie on the table.

The Committee on Naval Affairs, to whom was referred the subject of naval stores and munitions of war, appertaining to the Naval Department, by a resolution of the House of Representatives of the 10th December last,

REPORT:

That they have instituted an inquiry into the state and condition of the navy ordnance and ordnance stores, and herewith submit a schedule, marked A, embracing a full statement thereof.

The whole of the ordnance embraced in this paper is reported to be in good condition, excepting only such as is noted to be otherwise; but it is represented to the committee that but few, if any, of these guns, excepting those procured under the act for the gradual increase of the navy, are of the most approved kind for ships of war, and many of them would be rejected for sea service by any experienced officer.

A.

Military stores at the United States navy yard at Gosport, Va. procured under the appropriation for the "*gradual increase.*"
